

A message from Doug Tremblett, FB Bargaining Team Member

Above: The FB members in NL are pumped and ready for a fight. With the help of the Gander PSAC staff, our members organized an action event at public service week and are ready to do more.

I am pleased to report that site visits in Newfoundland and Labrador were extremely positive in support for our bargaining team and really Appreciated by our members. I want to thank our 1st National V.P., J.P. Fortin for joining me on these site visits. Even though we punched in 12 - 16hr days, the positive reaction by our members made it worthwhile.

Itinerary:

Sunday July 6 - St. John's Airport to meet with members

Monday July 7 - St. John's Port to meet with port members, district members, marine members director and teleconference with regional director

Tuesday July 8 - Goose Bay and meet with members and return to St. John's

Wednesday July 9 - Fortune to meet members and Gander to meet members that night

Thursday July 10 - Meet members in Gander and Deer Lake

Friday July 11 - Corner Brook members

I can report with 100% confidence that FB members in NL are ready to fight and will except nothing other then a contract that treats us fair. I am in the middle of site visits in NS, PEI and NB and can report that FB members in the Atlantic are behind their bargaining team. Reports on the visits will follow. I now know that getting to our members in Atlantic is a monumental task requiring extreme travel and long days, but the support and positive feedback from the members makes it worthwhile and motivating.
